ELEPHANT

CUT OUT
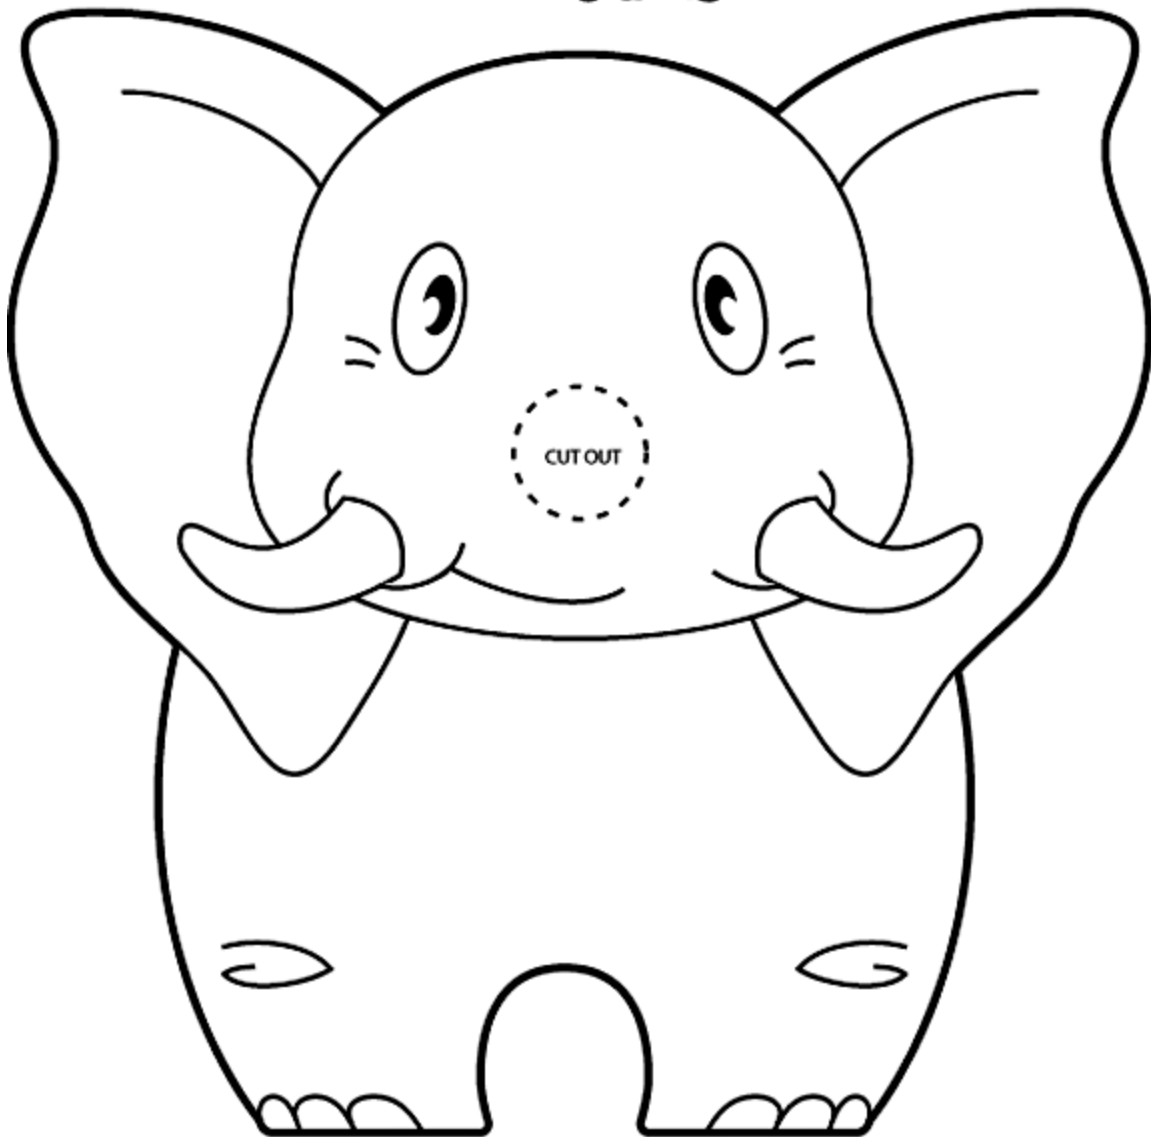

Directions:

1. Decorate this friendly elephant with Crayola® crayons or markers. Glue page to a piece of thin cardboard, such as a recycled cereal box or manila folder.

2. After the glue dries, cut out the elephant shape from the cardboard. Cut out the dotted circle in the center. (Make sure the hole is big enough to fit your finger through without getting stuck or ripping the cardboard.)

3. Put your finger through the hole and move it around...it's the elephant's trunk!
