PAPER AIRPLANE

Use a piece of paper and follow these directions to make a paper airplane.

1
Fold half way
and then unfold.

Fold the top corners down to meet the folded line.

Fold from the point to the middle line.

Fold the entire plane in half along the dotted line.

Fold the top flap down.

Flip the plane over and fold the top flap down.

Hold the plane underneath.

Tape the nose together. Color designs for example:

These decorations will add pizzazz! Gently toss into the air and watch your creativity soar!
