

# Every Leader Creates Relationships

## Student Leadership

**RESPOND** to the **CREATE™** Relationships framework. Discuss examples of each of the six behaviors and suggest ways students build these leadership skills.

**CELEBRATE STRENGTHS** and personal qualities.

**RESPECT DIVERSITY** by learning what is unique and universal.

**ENGAGE FULLY** while honoring multiple voices and learning styles.

**ACCEPT MISTAKES AS HUMAN LEARNERS** since mistakes build growth mindset.

**TRUST ONE ANOTHER** with positive intent.

**EXTEND LEARNING** with high expectations.

**CREATE** art that represents one or more of these skills and mindsets that demonstrate relationship leadership. Design a mural, poster, or sign that would inspire others to embrace this relationship-building skill or mindset. You might include a quote or key words that inspire you.

PLAN YOUR ART HERE BEFORE CREATING IT ON A LARGER SURFACE.

Camden C.

Cierra S.

Kayla D.

**PRESENT** your art and discuss the leadership scenarios that you focused on. What are some similarities? How do your ideas align with other students' work? How might a series of *Leadership Images* be displayed in your community to inform others of students' thoughts?

**CONNECT** how the art you created and the CREATE Relationships framework align with your school's diversity, equity, and inclusion goals. What change do you envision, and how can you implement an inclusion plan that is based on interpersonal relationships? How will this plan affect you, your classmates, and your community?
