

DOOR OR FLAP POP-UP BOOK

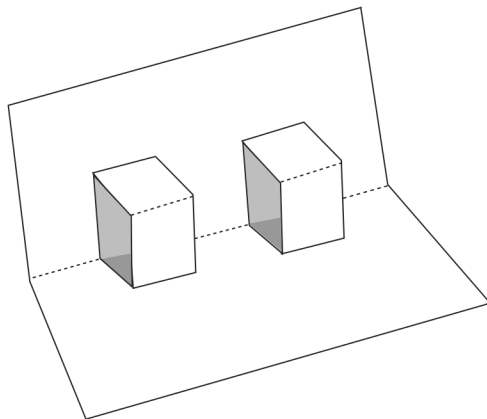

Make this book with construction paper.

1. Fold the paper in half widthwise (short end to short end).
2. Make 2 cuts from the folded edge about 1/3 of the way across the paper.
3. Repeat the cuts at the other end of the paper so there are 4 cuts in total.

4. Fold each flap back and forth making a firm crease

6. Open the paper to a 90° angle and gently push the flaps forward so they stick out the front of the paper.
7. Cut out shapes of objects and stick them onto the front of each flap.
8. Open and close the paper to see how the shapes pop up.
9. Glue the paper inside another, slightly larger piece of folded paper to finish the book.
