

# See the World from Many Perspectives

## Creativity Connects the World

**RESPOND** to art by using the SEEK questions. Artists communicate through visual messages. Explore the ways these three young artists show children playing, eating, and learning around the world.

**SEEK™**

- SEE** What do you see?
- EVIDENCE** Why do you say that? What is the evidence?
- EXPLAIN** What decisions did the artist make? Why?
- KNOW** What do you know? What else do you want to know?

Phan F.

Kedaton C.

Sofia T.

**CONNECT** art you will create with ideas you want viewers to see and understand. What decisions will you make as the artist? For example, will you use a realistic or abstract style? What will the colors and composition tell others? How will you use the placement of people and objects to express imagination and emphasis? What do you want viewers to know and what else might they want to know as they look at your art?

**CREATE** a drawing of an event or activity that would help others around the world understand you and your community or culture.

SKETCH IDEAS HERE.

**PRESENT** your sketch and use the SEEK questions to guide a discussion with your teacher, classmates, or family members. Explore how art can help express who we are and help us learn more about world cultures.
